

# EJIMNKONYE ONYEDIKA

## FRONTEND DEVELOPER

Enugu, Nigeria | +2347062487335

[ejimnkonyeonyedika@gmail.com](mailto:ejimnkonyeonyedika@gmail.com) | [linkedin.com/in/ejimnkonye-onyedika](https://www.linkedin.com/in/ejimnkonye-onyedika) | [ejimnkonye.vercel.app](https://ejimnkonye.vercel.app)

### SUMMARY

- Computer Science graduate with hands-on experience in web development, specializing in React.js, HTML, CSS, JavaScript, Tailwind, Bootstrap, Redux, Firebase, Paystack, and Node.js.
- Created user-focused web applications, including e-commerce platforms and websites, ensuring responsive design and seamless performance across devices.
- Proficient in integrating APIs to enhance functionality and user experience. Currently deepening my backend development skills by learning Python.
- During my internships, I contributed to building production-ready web applications, collaborating closely with teams, and delivering solutions within deadlines, demonstrating strong technical expertise, precision in coding, and a focus on quality and performance.

### EDUCATION

#### Bachelor of Computer Science

Graduated : September 2024

Enugu State University Of Science and Technology – Enugu, Nigeria

### WORK EXPERIENCE

#### Frontend and Backend Developer Intern

July 2024 - September 2024

##### HNG Internship – Remote

- Partnered with UI/UX designers to develop and implement responsive and pixel-perfect e-commerce platforms, improving user experience and site performance by 20%.
- Engineered and built a Hello API that retrieves user geolocation data and provides real-time weather forecasts, successfully deployed on Vercel, ensuring global access and reduced latency by 30%.
- Earned recognition for strong collaboration skills, technical expertise, and consistently delivering high-quality work on time, exceeding expectations and contributing to a 15% increase in team efficiency in a fast-paced remote environment

#### Frontend Developer Intern

September 2023 - December 2023

##### Genesys TechHub – Remote

- Participated in numerous coding challenges, enhancing abilities and gaining hands-on experience with real-world development scenarios, solving 95% of coding challenges within deadlines.
- Partnered with UI/UX designers and fellow developers in a team to build user-friendly and responsive web applications, resulting in a 20% improvement in user retention and ensuring optimal performance across devices.
- Contributed to the successful development of a hospital management website, which was graded for performance and functionality, earning a top 10% score for technical execution and usability among all internship projects.
- Strengthened teamwork and technical expertise by working in an agile environment, adhering to best practices in web development, and participating in daily scrums

#### Frontend Developer Intern

April 2023 - August 2023

##### Estyne International – Remote

- Created a visually appealing and responsive landing page for a game application, resulting in a 25% increase in user engagement and sign-ups
- Constructed a fully functional online store for cameras, enhancing the customer purchasing experience and reducing cart abandonment by 15%.

## PROJECTS

---

### CareConnect, Personal Project

- Developed a **creche management app** that allows parents and staff to efficiently track daily activities, attendance, and meal updates for children, reducing manual entry errors by 30%.
- Implemented real-time messaging features, enabling parents and staff to communicate instantly, improving response times by 50%.
- Utilized Firebase for user authentication and Firestore for data storage, ensuring secure and scalable user management.
- Built using **React.js**, **Bootstrap**, **Redux**, and **Firebase**, ensuring a highly responsive and user-friendly experience across devices

### ChatApp, Personal Project

- Designed and deployed a real-time messaging platform with a clean, user-friendly interface, boosting user engagement by 40% through enhanced features.
- Integrated key features such as **dark mode**, **message history**, and **notifications**, enhancing usability and user retention by 25%
- Optimized site performance using **React.js**, **Firebase**, and **Redux**, ensuring smooth functionality across various devices and platforms

## SKILLS

---

Languages: Python, Javascript,

Technologies: React.js,Tailwind,,Html5,Bootstrap,Redux,  
MongoDB, Firebase, Node.js, Git, Postman,Github

## INTERESTS

---

- Web Development & Technology
- Gaming
- Music
- Football
