SOFTWARE DEVELOPER

- Computer Science graduate with strong expertise in full-stack web development, including frontend and backend technologies. Skilled in building responsive web applications using React.js, Node.js, Tailwind CSS, Bootstrap, Redux, and Firebase.
- Proficient in Python backend development, with experience building APIs and data management using frameworks like Flask and Django, as well as working with PostgreSQL and MongoDB for database management.
- Extensive experience with real-time data processing, cloud deployment, and API integration to enhance functionality and improve user experience. Familiar with deploying applications on platforms like Vercel, Heroku, Render, and AWS Lambda.
- Adept at using version control systems such as Git, GitHub, and GitLab for code collaboration, while maintaining CI/CD pipelines for efficient development and deployment cycles.
- Experienced in working with agile methodologies, collaborating with UI/UX designers and developers to ensure pixel-perfect designs, optimized performance, and scalable applications.
- Passionate about building high-performance, user-centric web applications that provide seamless experiences across devices and platforms

WORK EXPERIENCE

Estyne International
Software Developer   **04/2023 - Present**

- Designed and developed a responsive landing page for a game application, resulting in a 25% increase in user engagement and sign-ups.
- Built a fully functional online store using React.js, Tailwind CSS, and Redux, enhancing customer experience and reducing cart abandonment by 15%.

HNG Tech
Frontend and Backend Developer   **07/2024 - 09/2024**

- Collaborated with UI/UX designers to develop and implement responsive and pixel-perfect e-commerce platforms, improving user experience and site performance by 20%.
- Engineered and deployed a Hello API to retrieve user geolocation data and provide real-time weather forecasts using Node.js and Flask, ensuring global access and reducing latency by 30%.
- Utilized Docker for containerization and deployed projects to Vercel, contributing to 15% improvement in team efficiency.

- Recognized for consistently delivering high-quality code on time and exceeding expectations in a fast-paced remote environment.

Genesys TechHub
Frontend Developer   **09/2023 – 12/2023**

- Contributed to the development of a hospital management website, improving usability and technical execution, earning a top 10% score among all internship projects.
- Developed responsive web applications, ensuring optimal performance across devices, and resulting in a 20% increase in user retention.
- Strengthened technical expertise in JavaScript, HTML5, CSS, and React.js, while working in an agile environment and participating in daily scrums.

EDUCATION

Bachelor Degree in Computer Science

Enugu State University of Science and Technology   Enugu, Nigeria • 07/2020 - 08/2024

PROJECTS

CareConnect
Personal

- Developed a creche management app allowing parents and staff to track daily activities, attendance, and meal updates for children, reducing manual entry errors by 30%.
- Integrated real-time messaging features with Firebase and React.js, improving communication efficiency by 50%.
- Used Firebase Authentication for secure user management and Firestore for scalable data storage.

ChatApp
Personal

- Designed and deployed a real-time messaging platform, enhancing user engagement by 40% through dark mode, message history, and notifications.
- Optimized performance using React.js, Redux, and Firebase, ensuring smooth functionality across multiple devices.
- Focused on responsive design and optimized state management for improved user retention by 25%.

SKILLS

- **Programming Languages:** Python, JavaScript, SQL
- **Frontend Technologies:** React.js, Tailwind CSS, Bootstrap, HTML5, CSS3, SASS, Material-UI, Storybook
- **Backend Technologies:** Node.js, Express.js, Flask, Django, PostgreSQL, MongoDB, Firebase, API Integration (RESTful, GraphQL)

- **Cloud & Deployment:** Vercel, Heroku, Render, DigitalOcean, Docker, AWS Lambda, GitHub Actions, CI/CD Pipelines Version Control & Collaboration

- **Version Control & Collaboration:** Git, GitHub, GitLab, Bitbucket

- **Other Tools & Technologies:** Postman, Swagger, Webpack, Nginx, Redis, GraphQL, ElasticSearch, Jest, Mocha, Postman, Axios, Swagger, Webpack, Terraform, Nginx, Redis, GraphQL, ElasticSearch, Jest, Mocha, Axios, Terraform
